

True Love

music & lyrics by Kim Banffy

I love the way you view me as a wondrous sight  
And I love the way we never, ever have a fight,  
And I love the way you greet me in the morning light;  
The early rays come streamin' in & you come around & kiss my chin, oh  
Ch: I could walk a thousand miles & never find a friend  
That sees right to the heart of me, yet treats me like I'm royalty, and

I love the way you live each moment to the max.  
I love the way you're keen on always sniffing out the facts  
And I love the way you're not too uptight to relax;  
You make the most of every day & you never let work get in the way, oh  
Chorus

And I love the way the love comes shinin' through your eyes.  
I love the way you never put your feelings in disguise  
And I love the way you're always loyal, kind & wise.  
You know you have that special way that makes me feel I've made your day, oh  
Chorus

I love the way I know your love will never fail.  
I love your sense of new adventure, walking down the trail  
And I love the way you greet me with a circle-tail.  
You know you have such joi d'vivre, you could teach us humans how to live, oh  
Chorus and  
I love you  
I love you, I love you too!
